REFERENCE FOR KELECHI ANDERSON IWUORIE

I am writing this reference letter to support the graduate program application of Mr. Kelechi Anderson Iwuorie at your university. He is a professional colleague of mine, a subordinate to be precise in our current place of work/organization, Corporate Affairs Commission (CAC) and I have known him for almost a year in our Information & Communication Technology (ICT) Department.

We briefly discussed about his motivation and he told me about his desire to advance his knowledge on Computer Networks, Security and enterprise architecture. Although I cannot stand as an academic referee for him but rather a professional one, I learnt from the verification process he underwent before joining our Organization to be an upper second class Student from his undergraduate studies. His responsibilities in CAC includes but not limited to in-house requirement gathering, business analysis, software development, installation and maintenance and providing User support to all Users of enterprise software. He is also part of a sub-unit that is charged with the updating website content of our Organizations he proved to be outstanding in almost every task he was assigned to carry out.

Personally, he is very polite and well organized, independent minded and has a good sense of creativity. He is highly self-motivated and hardly let deadline meet up with him when assigned a task. Mr. Kelechi is very fluent in oral and written English. He relates well with his Colleagues and tends to be a good helpmate and obliging in times of need whenever possible.

In short, I believe Mr. Kelechi will be successful to lead a graduate program on his chosen course of study if given the opportunity and I strongly support his application.

Yours sincerely,

Abdullahi, Muhammad

(Team Lead, Web Administration & Business Relation Management)
